# IMPACT EVALUATION STUDY OF THE CANDON BYPASS ROAD PROJECT

**ENP Ednore Freynon N. Perez**  
NEDA – Regional Office 1

# PRESENTATION OUTLINE

Introduction

Research Evaluation

Data Sources and Methodology

Preliminary Results

# I. Introduction

Project Information (Basic Details)

# Project Information

- ***Title:* Impact Evaluation of the Candon Bypass Road Project**
- ***Project Duration:* July to December 2023**
- ***Project Outputs:***
  - Four-lane – 7.3-km. bypass road
  - Oaig Daya Bridge (30 Im)
  - Road signages and pavement markings and four waiting sheds.
- ***Purpose of the Program and Project:***
  - Ease traffic congestion and reduce travel time from Sta. Lucia, Ilocos Sur to Santiago, Ilocos Sur from 40 minutes to 20 minutes.
  - Promote economic activities.

A Decade of Collaboration:

**Charting the Path Forward through Partnerships in M&E**

THE 10<sup>TH</sup> M&E NETWORK FORUM | 29 Nov 2023

THE 10<sup>TH</sup> M&E NETWORK FORUM | 29 Nov 2023

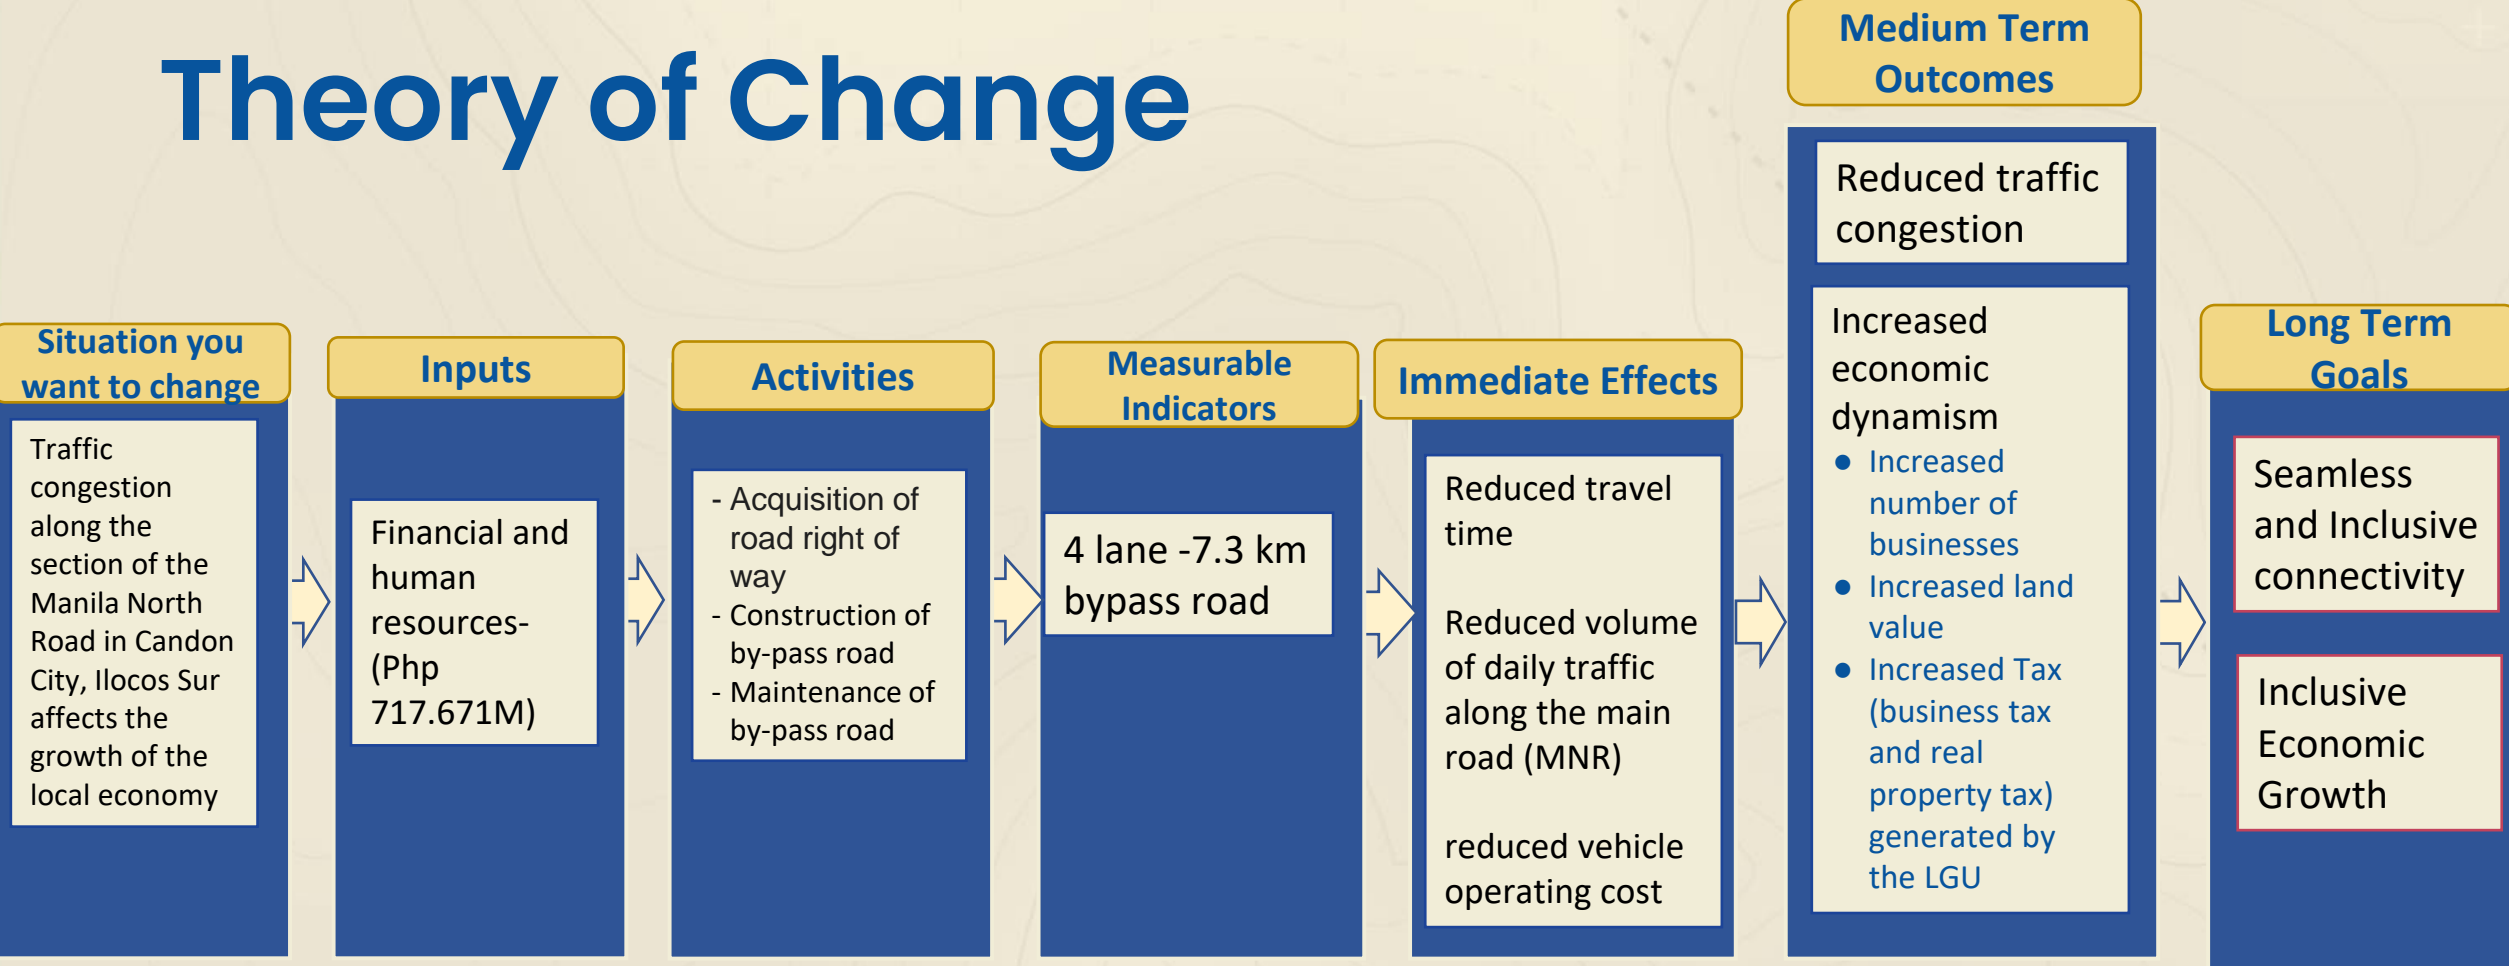

## II. Research Evaluation

- a. Theory of Change
- b. Evaluation Questions and Objectives

# Theory of Change

- Assumptions**
- Funds are readily available and sufficient

- Bypass road constructed as designed

- The motorists/commuters (residents and transients) are using the bypass road
- Bypass road is regularly maintained

- Traffic management effectively implemented
- LGU ensures strict enforcement of required easement
- Governance mechanisms to attract investments are in place

- There is continuous upgrading of infrastructure
- There is effective governance that can maintain attractive business climate

A Decade of Collaboration:  
**Charting the Path Forward through Partnerships in**  
 THE 10<sup>TH</sup> M&E NETWORK FORUM | 29 Nov 2023

# Evaluation Questions and Objectives

The primary objective of the study is to evaluate the impact of the bypass road in reducing traffic congestion and increasing economic growth in Candon City, Ilocos Sur. Specifically, it aims to provide answers to the following questions:

1. Did the project reduce the annual average daily traffic along the bypassed road?
2. Did the project increase business activity in Candon City?

A Decade of Collaboration:

**Charting the Path Forward through Partnerships in M&E**

THE 10<sup>TH</sup> M&E NETWORK FORUM | 29 Nov 2023

# III. Data Sources and Methodology

- a. Methodology
- b. Data Sources

# a. Methodology

## Quasi-experimental Method - Synthetic Control Method (SCM)

- Find the “best” available comparison or synthetic control unit that will approximately match the treatment based on: (a) important pre-intervention predictors of the outcome and (b) Pre-intervention trends on the outcome.

## Descriptive Research Method (Complement empirical results)

- Determine the profile of establishments in Candon City before and after the Bypass Road using the Annual Survey of Philippine Business and Industry (ASPBI)
- Gather qualitative information on the effects of the project through focus group discussions (FGD) and key informant interviews (KII).

A Decade of Collaboration:

**Charting the Path Forward through Partnerships in M&E**

THE 10<sup>TH</sup> M&E NETWORK FORUM | 29 Nov 2023

# a. Methodology

## Why SCM?

- The intervention affects an aggregate unit (city)
- The intervention is an infrequent event w/ few observed instances
- Evaluating medium to long term effect, thus, single-unit time-series analysis is ill-suited
- Compare trends of outcome variables of treatment unit to similar untreated units
- Small number of control units - a combination of control units provides a more appropriate comparison
- Data driven procedure that formalizes the selection of comparison units

A Decade of Collaboration:

**Charting the Path Forward through Partnerships in M&E**

THE 10<sup>TH</sup> M&E NETWORK FORUM | 29 Nov 2023

# Identifying the Counterfactual

- Cities/Municipalities along the Manila North Road in the provinces of Region 1 will be identified using the following criteria and will serve as donor pool:
  - a. LGUs along the Manila North Road (MNR) in Region 1;
  - b. No existing bypass roads in the LGU;
  - c. The MNR serves as the LGUs major thoroughfare; and
  - d. The MNR traverses the central business district (CBD) of the LGU.

List of LGUs which met the above-mentioned criteria:

Province	Name of Municipality	Number
Ilocos Norte	Burgos, Bacarra	2
Ilocos Sur	Santa Cruz, Santa Lucia, Santiago, San Esteban, Narvacan, Santa, Santo Domingo, Magsingal, San Juan, Cabugao, Sinait	11
La Union	Aringay, Caba, Agoo, Bauang, Bacnotan, Balaoan, Bangar, Santo Tomas	8
<b>Total</b>		<b>21</b>

A Decade of Collaboration:

**Charting the Path Forward through Partnerships in M&E**

THE 10<sup>TH</sup> M&E NETWORK FORUM | 29 Nov 2023

# b. Data Sources

## a. Independent Variables (Predictors)

### Economic Sector

- Total Crop Production
- Total Livestock Production
- Total Poultry Production

**Data Source: LGUs (Province and Municipality)**

### Social Sector

- Population Density, Population, Land area
- Proportion of Males and Females
- Number of Households and Average Household Size
- Poverty Incidence
- Small Area Estimates

**Data Source: PSA CO**

### Education Sector

- No. of Junior and Senior HS
- Annual Literacy Rate

**Data Source: DepEd School Division Offices and PSA**

### Health Sector

- Annual Morbidity Rate per 1000 population
- Annual Mortality Rate per 1000 population
  - a. Infant Mortality Rate
  - b. Under- five Mortality Rate
  - c. Maternal Mortality Rate

**Data Source: PSA CO**

# b. Data Sources

## b. Dependent Variables

Data	Data Source	Coverage of Analysis
O1: AADT (O1)	DPWH Region 1 and DPWH CO	2010-2022
Revenue/Income		
O2: Local tax revenue generated (Real Property Tax)	BLGF Website	
O3: Local tax revenue generated (Tax on Business)	BLGF Website	

# IV. Preliminary Results

# Average Annual Daily Traffic Model (in Ten Thousands)

# Results from FGD and KII

## OBSERVATIONS

**CITY DEVELOPMENT**

**ENVIRONMENTAL ISSUES**

## BENEFITS

**ECONOMIC DEVELOPMENT**

**INFRASTRUCTURE & FACILITIES**

## CHALLENGES

**AGRICULTURAL AND ENVIRONMENTAL ISSUE**

**LAND USE CHALLENGES**

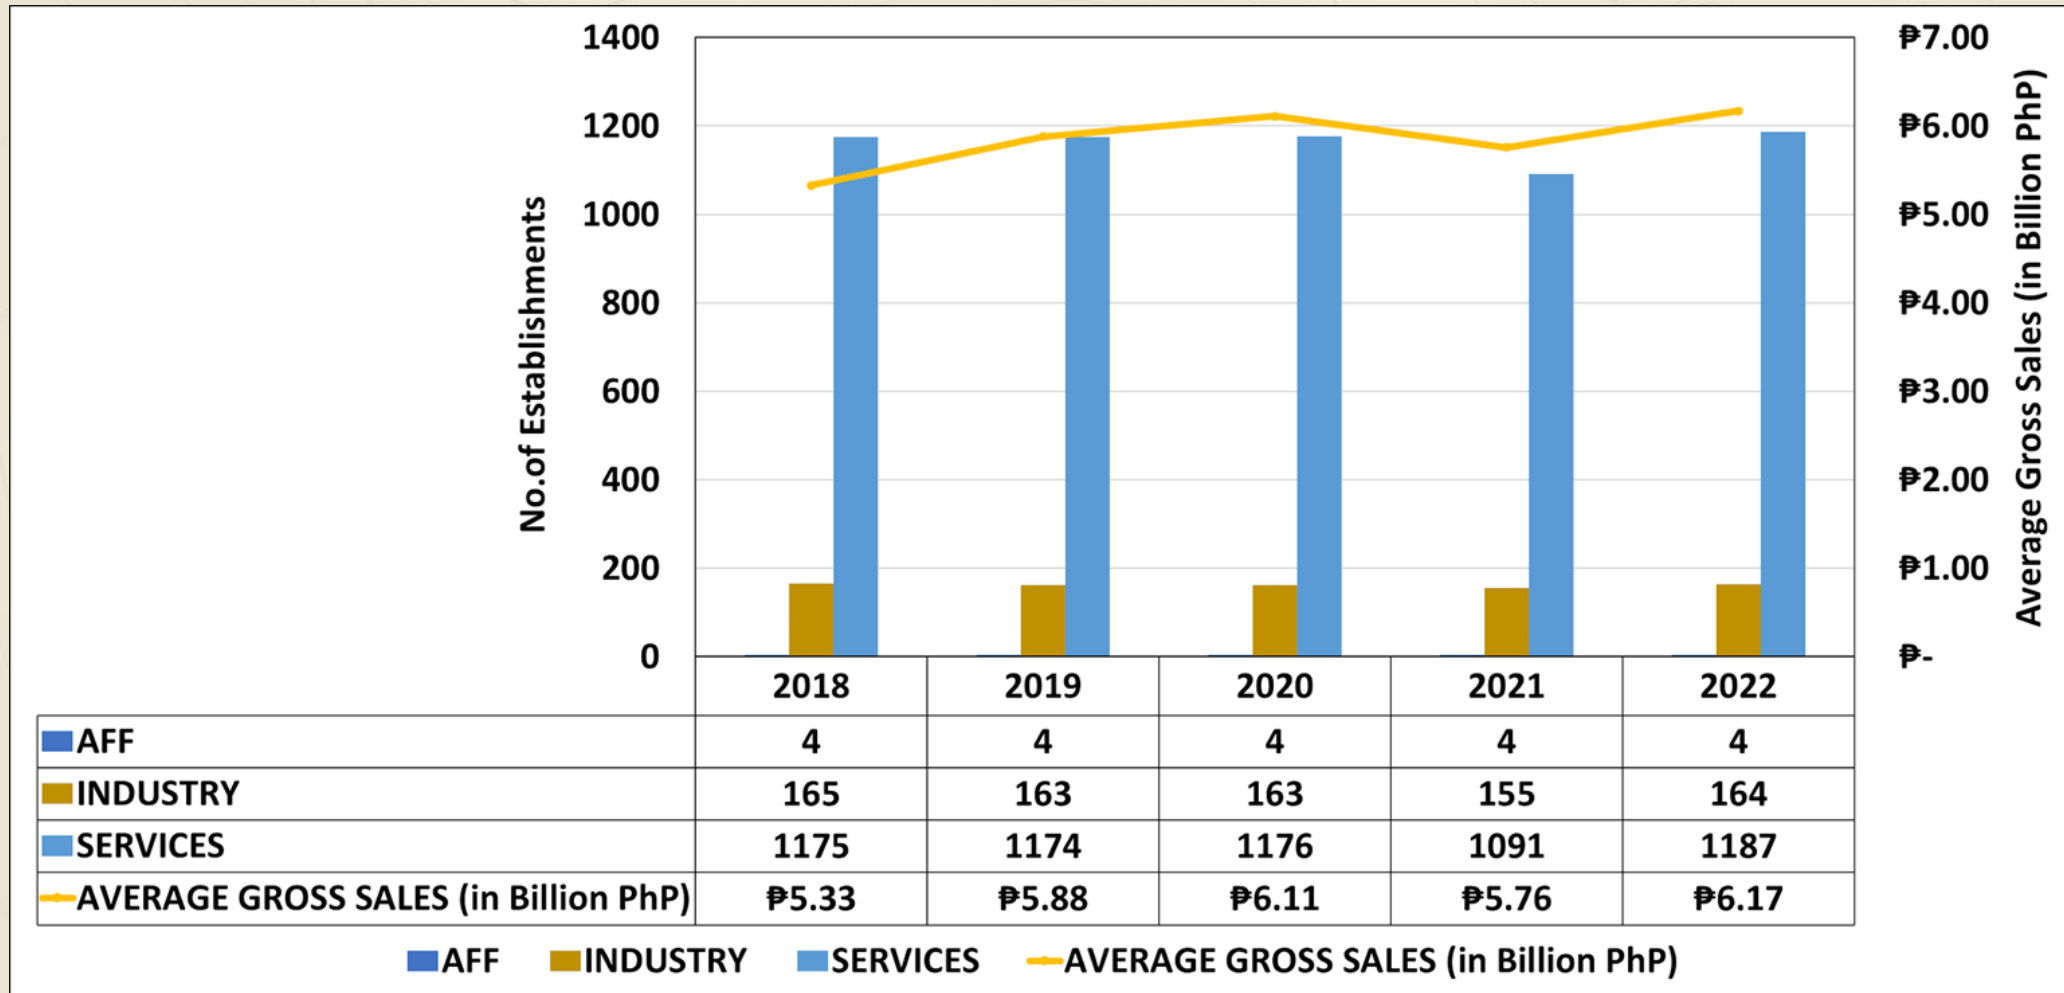

**RISING LAND VALUE**

**REDUCTION OF LOCAL BUSINESS SALES LOCATED IN CBD**

# Profile of Establishments

Number of Establishments by Industry and Average Gross Sales, 2018 - 2022, Candon City

A Decade of Collaboration:  
**Charting the Path Forward through Partnerships in M&E**

THE 10<sup>TH</sup> M&E NETWORK FORUM | 29 Nov 2023

Notes: \* $p < 0.05$ , \*\* $p < 0.01$

- The Bypass Road reduced the annual average daily traffic along the bypassed portion of the Manila North Road from 2020 to 2022 by an average of 160 volume of vehicle traffic.
- The Bypass Road increased the annual per capita income from real property taxes in Candon City from 2020 to 2022 by an average of 20 pesos.
- The Bypass Road increased the annual income from business taxes in Candon City from 2020 to 2022 by an average of PhP3.9 million.
